

YHS 2012
Update for PPHL Membership Meeting
January 31, 2013

1. Survey Implementation Status

- Targets: 37 SDs (plus Faith-based, Independent & FN schools) = 660 schools
- 31 school divisions (427 schools) have had surveys distributed to date, including a number of Faith-based, Independent & FN schools
- Survey versions chosen:
 - 11 SDs chose the non-sexual health survey for all grades
 - 18 SDs chose the sexual health survey for all grades
 - 7 SDs chose a combination of each type of survey
 - 1 SD has yet to decide
- Active consent – 1 SD
- Student codes used in 28 SDs
- Planning has been conducted for the remainder of the school divisions
- Surveys will be complete by mid-April 2013
- RHA reps are connecting with independent and faith based schools to determine their interest in participating

2. Data Input/Scanning

- Scanners located in IERHA (Eriksdale), CCMB (St. B.), Northern RHA (Flin Flon) and Prairie Mountain Health Region (Roblin, Shoal Lake and Brandon).
- Scanners in IERHA, CCMB and Northern RHA are complete and staff is scanning
- Scanners in PMHR are finalizing installation and testing

3. Reports

- Report template finalized. Review process included reviews by Expert Working Groups, YHS Implementation Team members and Knowledge Exchange Working Group members.
- Test report created with one school's information. Minor edits made to report and presentation of results.
- Reports will soon be produced and distributed as school division data is received.

4. Data Sharing/Ownership

- Draft Data Sharing Agreement between CCMB & RHAs was developed and shared with all RHAs for review and comments. Waiting for reply from WRHA prior to final version being created and presentation to RHAs for signature.
- Summary Data Stewardship/Ownership/Sharing document being created to cover entire data sharing process and to record major decisions made for the 2012 YHS.
- Additional DSAs are being developed between HCM and the RHAs and Manitoba Health.

5. Media Coverage

- 2012 YHS received coverage on CJOB's Richard Cloutier Report, starting with an interview with Dr. Michael Routledge and ending with an interview with the Seven Oaks School Division Superintendent. Mr. Cloutier was asking questions about the survey content (specifically the sexual health questions) and the parental notification/consent process. There were a number of callers to the program, covering all points of view.
- There have been a few concerned parents in contact with a few of the SDs in Winnipeg. Concerns were mainly on the survey content (specifically the sexual health questions) and the parental notification/consent process. All concerns have been dealt with either by the SD or the RHA.
- A recent concern was raised with the Chair of PPHL. A response was being drafted when the individual contacted us to say that his questions had been answered by others and he considered the issue resolved.
